

Turbo Blower™

The original Turbo Blower from Pablo is the ultimate confetti gerb capable of blowing large quantities of confetti high into the air both indoor as well as outdoor.

The Turbo Blower is propelled solely by the pressure from CO2 tank and requires no electricity. The airstream can lift confetti as high as 30 meters up in the air. The Turbo Blower are standard operated manually but can as an option be fitted with electrovalve.

The Turbo Blower is manufactured in 3 sizes with 3", 6" or 8" inlet diameter.

3" and 6" Turbo Blower™

6" Turbo Blower ready for use

6" Turbo Blower in transport position

6" Turbo Blower closed
